ABOUT US

Clarke Group Construction is a family run business, incorporated in the late 90's, and did not envisage that the family name would appear on site boards across not just England, but the whole of Great Britain.

Brothers, Steve and Paul have continued to grow Clarke Group's name within the industry across many different sectors, whilst still ensuring the preservation of the company's traditional values and respecting its long-standing history.

Having worked in areas such as commercial, educational, health, heritage, housing, leisure, poultry, and retail, we have gained an invaluable wealth of knowledge that is vital to the service we provide to our customers.

Operating from our office in Boston, Lincolnshire, Clarke Group Construction are dedicated to working in partnership with our clients, committed to having a sustainable impact on the communities in which we work and enthusiastic about the training and development of our people.

We are proud to introduce our company brochure and we trust you will find its contents a useful summary of our business and a demonstration of all we have to offer.

OUR PEOPLE

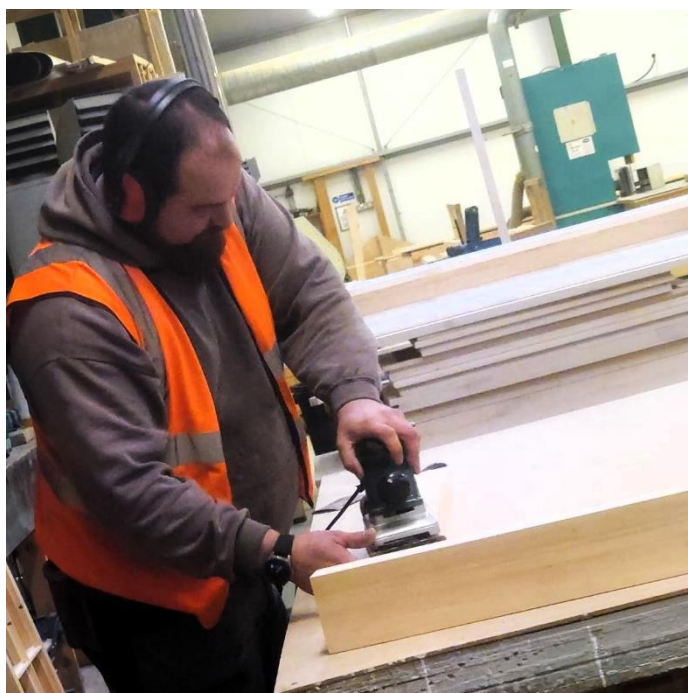

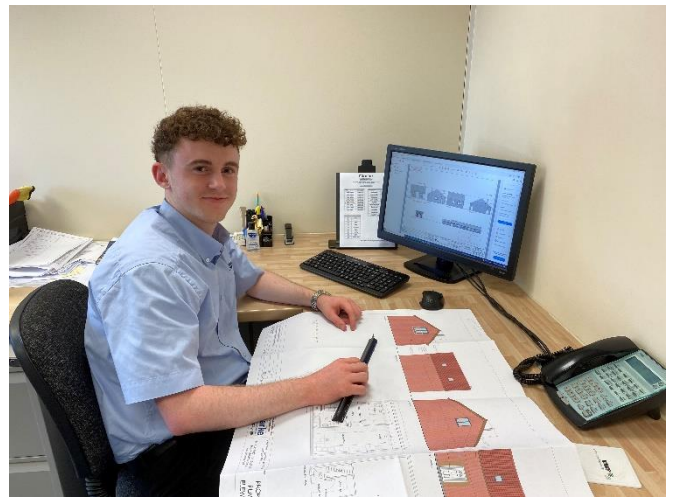

We know that outstanding projects require outstanding personnel.

Our core values are teamwork, and we take great satisfaction in assembling the most qualified team for each task.

We take great pride in providing our staff with the training and assistance they need to accomplish successful projects that we can be proud of. We also value their loyalty and knowledge.

With decades of collective experience, we are investing in and imparting useful trade skills to our workforce while also providing them with the new skills they need to succeed in this quickly evolving industry.

At Clarke Group Construction, we make an effort to be pleasant to deal with and give our all to every project we undertake, from beginning to end.

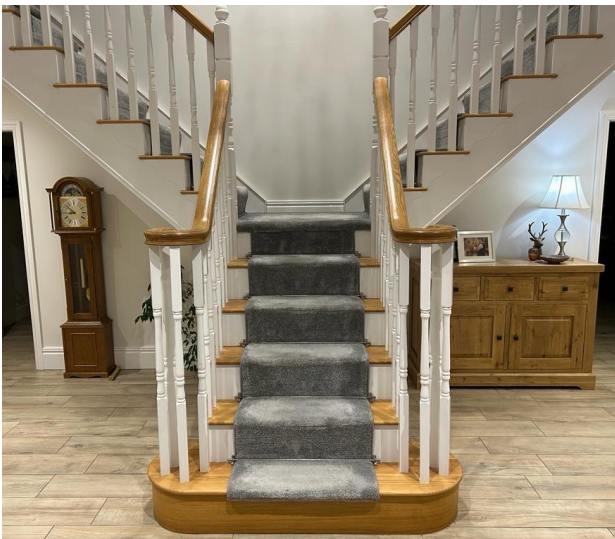

WHAT WE DO

From the ground up, we provide experience and specialised knowledge, with direct delivery capabilities ranging from engineering and design to construction.

We can deliver "Successful Projects" across a variety of disciplines and construction sectors thanks to our reliable supply chain, which also helps us achieve cost and project management efficiencies. We value traditional methods and expert craftsmanship while also being open to new ideas and the newest technologies.

Our dependable and established connections with our supply chain and delivery partners guarantee a common level of devotion and commitment throughout all projects, providing assurance of our superior standards and meticulous attention to detail, from beginning to end.

ACCREDITATIONS

Clarke Group Construction are accredited to CHAS, SafeContractor and Constructionline. We are also UKCA accredited for our structural steel components; providing evidence that the products comply with all European health, safety, and environmental protection legislation.

We are members of the Heritage Trust Network, Lincoln Chamber of Commerce and are on the PAGABO Framework.

We are currently working towards being ISO accredited.

PENDING...

IN HOUSE RESOURCES

We are continually investing in the business to ensure that we remain efficient and competitive.

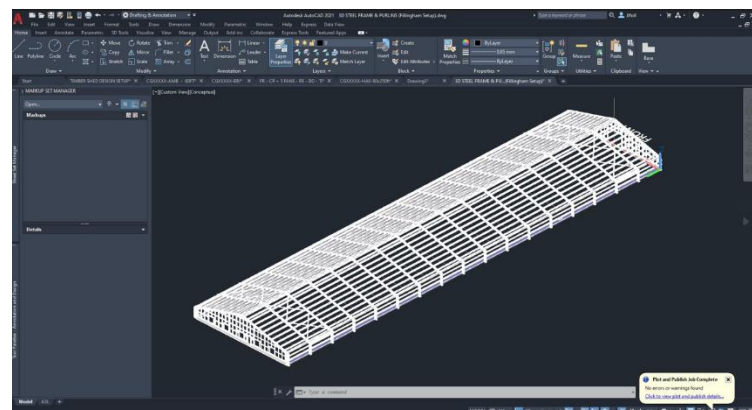

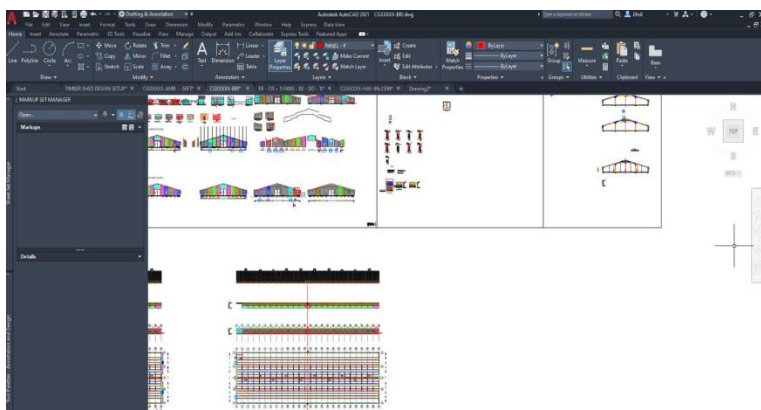

Our on-site joinery workshop now solely serves our own contracts and offers a beneficial in-house facility.

We have our own plant machinery, which allows us to maintain more in-house control and provide an outstanding service to our sites. We also have our own HGV with a low loader, flat bed and tautliner trailer to transport our plant and manufactured goods. This reduces dependency on third-party transporters and consequent delays.

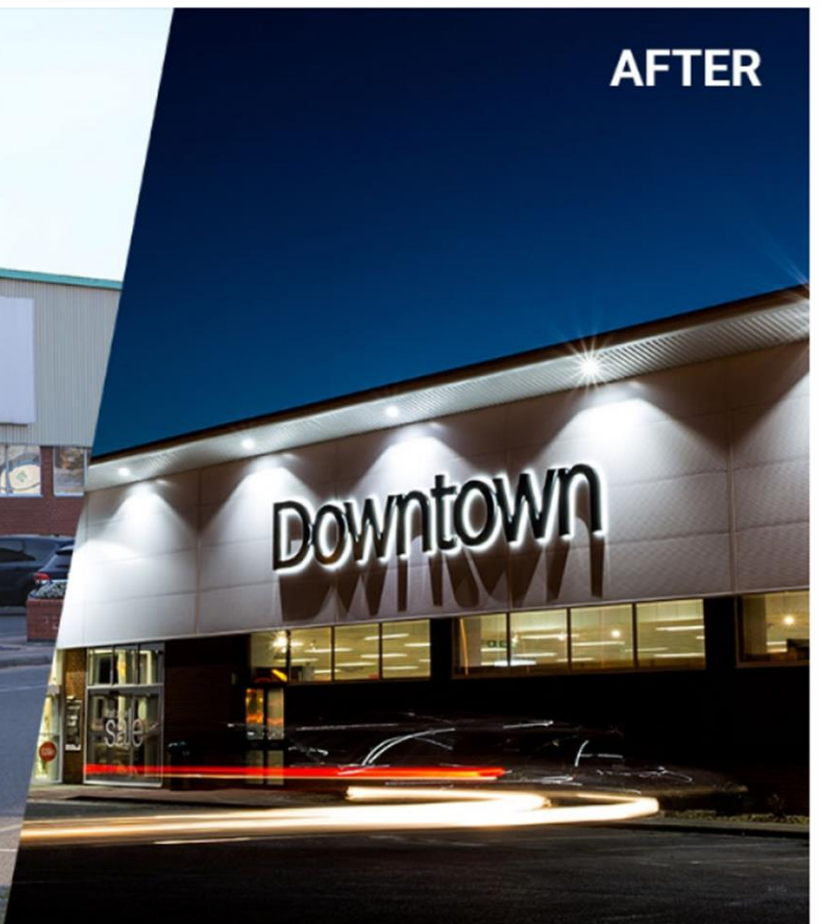

Finally, we have our own in-house design team equipped with the latest AutoCAD software.

COMMERCIAL & INDUSTRIAL

We have experience in both commercial and industrial sectors, including the design and delivery of new offices and production facilities. As well as refurbishments, we also deliver upgrades to existing facilities, ensuring minimal disruption where work occurs around normal operations.

EDUCATION

Through well-designed, creative, and comfortable spaces, we create learning environments. Working in close association with nurseries, schools, and advanced education suppliers, we establish persuasive conditions that mirror the most recent reasoning and drives that are driving school improvement.

Our experience includes student accommodation, libraries, lecture halls and teaching spaces.

HEALTH

Our laid-out history of activities in medical services incorporates care facilities and care homes. We work with clinical and non-clinical staff to grasp the functional necessities, conveying a patient-focused service.

Because of working close to patients, we team up with staff to foster suitable methodologies for working in a live climate guaranteeing there are no spontaneous interferences to administrations.

HERITAGE

Our expertise in the preservation, repair, and renovation of historic and listed buildings is extensive. By applying suitable materials and techniques along with our understanding of best practice principles, we are able to accurately recreate and restore original craftsmanship.

Our passion for craftsmanship spans decades, and the breadth of our client portfolio, which includes high-profile projects, attests to our experience and expertise in specialised project delivery.

HOUSING

We design beautiful homes that people aspire to live in. We will work closely with clients on every project, from custom-built affordable homes to upscale residential developments, to ensure that their needs are met, and they have the best possible homes to enjoy.

HOTEL & LEISURE

Our hotel experience ranges from independent hotels to repeat business.

Our expertise in the leisure industry includes leisure centres, swimming pools, theatres, museums, sports stadiums, and exhibition centres. This includes delicate refurbishment works to historically significant cultural attractions, professional sporting facilities and out of town leisure complexes.

POULTRY

Clarke Group Construction also specialises in the design and production of poultry barns. We can offer a fully designed package to satisfy the needs of our clients and industry standards, as well as a design solution that provides the greatest level of environmental management and bird welfare.

In addition to newly built poultry houses, we have vast experience doing exterior work on numerous older poultry buildings throughout Lincolnshire and the UK.

We understand the requirements for running an effective poultry farm, as well as the obstacles of working on live farms to ensure crop continuity. Our knowledge and understanding of poultry house construction keep us ahead of market expectations.

PUBLIC REALM

At Clarke Group Construction, we have always valued the chance to work on projects that impact on the community's quality of life. Delivering creative and useful public spaces and civic amenities while closely partnering with local governments and councils to enhance the quality of life in communities and the places people visit, live, and work.

We take great pride in the caliber of our work in the public sector, having completed a variety of projects such as community halls and libraries. We also recognize the significant impact our projects can have on the development and identity of a town, city, or village.

REFURBISHMENT

Our expertise spans from restoring and repurposing existing spaces to taking buildings back to their original frame for redevelopment. We offer top-notch refurbishment services to both the public and private sectors.

Projects have included extensive renovations of sensitive living spaces such as offices and hotels. Additionally, we have restored and expanded buildings on several heritage and listed sites, requiring specialised trade craftsmanship and a considerate approach to the blending of modern and historic architecture.

RETAIL

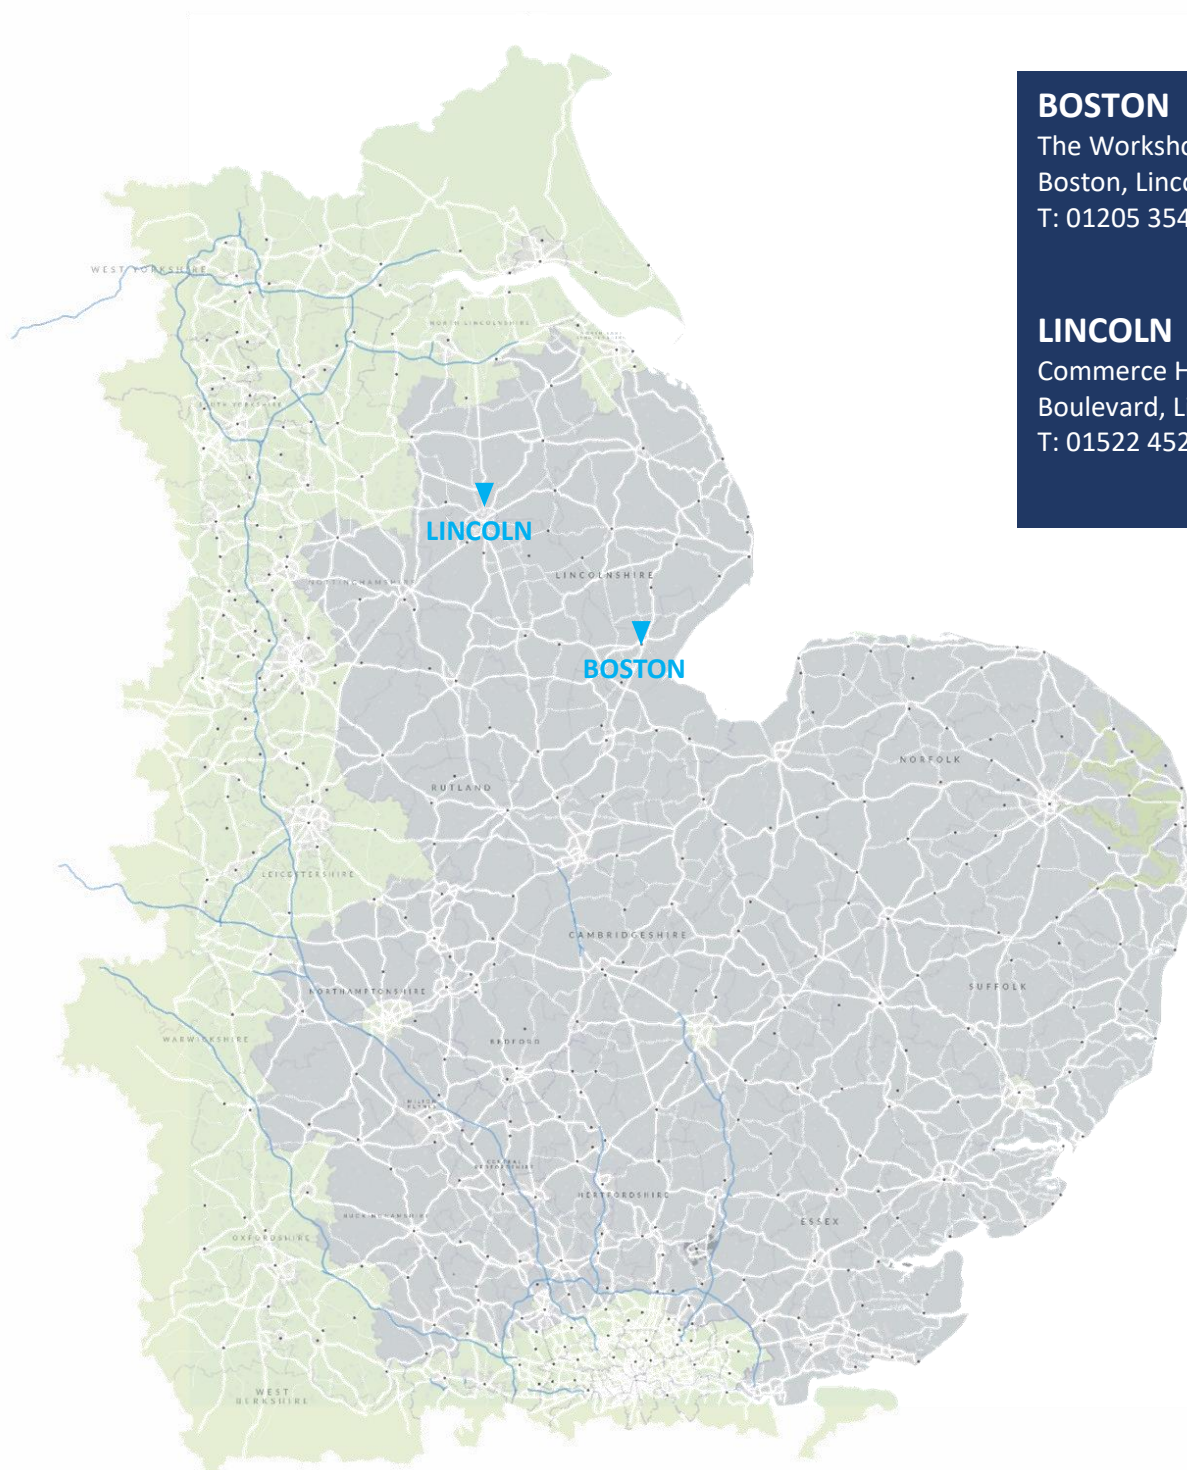

Our experience in the retail industry allows us to offer construction, retail commercial fit out, and refurbishment services.

We know that in this dynamic market, adaptability is essential, and we are always improving our offerings to better serve our retail clients. Our sensitive work style and minimal trading disruption demonstrates our appreciation for the challenges faced by the retail industry.

OUR LOCATIONS

We have our head office based in Boston, Lincolnshire, with another office based in Lincoln, to suit all construction needs. Working on projects across the UK, we welcome enquiries for both local and nationwide contracts either via our local offices or via info@clarkegroup.co.uk
